

EMERGENCY DATA SHEET

Risk number: **Not classified**

UN or ONU: **not classified**

Class risk or subclass: **not classified**

Description of the class of risk or subclass: **nonhazardous**

Packing Group: **III**

Rua Hidrogênio, 1744 - COPEC
Camaçari - Bahia - Brazil
CEP.: 42810-010

Tel: +55 71 3634-3333 or
0800 284 8474

LAB LINEAR ALKYL BENZENE (DETENLAB)

Aspect: Clear and odorless liquid. Was not identified incompatibility with other products.

PPE for the exclusive use of the Emergency Response Team.

- **Head Protection:** Wear safety helmet.
- **Eye Protection:** Wear splashproof safety goggles and face shield to avoid contact with the eyes.
- **Skin Protection:** Wear impervious gloves and protective clothing level C to avoid contact with the skin.
- **Respiratory Protection:** Wear respiratory protection with filters to protect against organic vapors and acid gases.

Note: In case of fire use full firefighter uniform standard NFPA (helmet, hood, jacket, gloves, pants and boots and breathing apparatus).

The driver's PPE will be specified in ABNT (National Association of Technical Standards) number 9735.

RISKS

- Fire:** There is no risk under normal conditions.
- Health:** Not harmful under normal conditions.
- Environment:** The product is biodegradable. Do not use water affected by the spill.

IN CASE OF ACCIDENT

- Spill:**
- Park the vehicle in an appropriate location;
 - Signalize, isolate the area within a radius of 50m in all directions and notify Deten Química;
 - Keep away the people without function in the emergency response, avoiding their contact with the product;
 - Wear the PPE (Personal Protective Equipment), as specified above;
 - Minor spills: absorb with sand or other non-combustible material and store in containers for further disposal;
 - Major spills: confine the flow far from the spill for further disposal
- ..
- Fire:**
- There is no risk of fire. However, flames and sparks must be avoided.
- Pollution:**
- In case of water contamination, inform the competent authorities;
 - Prevent the flow to water resources (rivers, lakes and streams).
- Personal Contact:**
- Contact with the skin: remove the contaminated/saturated clothes and rinse with plenty of water for at least 15 minutes;
 - Contact with the eyes: rinse with plenty of water, for at least 15 minutes;
 - Inhalation: remove the patient to a safe and ventilated area. If necessary, apply artificial breathing and seek medical assistance.
- Notes to Physician:**
- Report the event and hand out the Emergency Data Sheet..

REMARK:

In case of emergency, the instructions to the driver are expressly described in the emergency envelope.
